SPECIFICATION

Ultrasonic Nebulizer Mini

With modern micromembrane technology (MESH).

Compact and handy ultrasound inhalation device with great nebulisation performance. Whether at home or on the go, the portable mini inhalation device fits in any pocket. With just one push of a button, the device is fully ready for use and ensures optimal nebulisation of the inhalation. The inhaler also works extremely quietly, even during the night you don't have to worry about waking up your partner or family while inhaling.

The state-of-the-art MESH micromembrane technology atomises the inhalate into the finest droplets and is perfectly suitable for adults and also for children. The nebuliser temperature can be easily regulated by filling with warm, hot or cold water.

Included in delivery:

Mini inhalation device including mouthpiece, one inhalation mask each with connection adapter for children and adults, USB power cable unit and operating instructions.

Product specifications

- Whisper-quiet operation
- Suitable for almost all commercially available oil-free inhalation solutions
- · Removable container for easy cleaning
- Optimal hygiene due to boilable mouthpieces
- Integrated automatic switch-off and self-cleaning function
- Battery status display
